Advanced Computer Architecture
Project Proposals

Due:
- Tuesday Oct 8 (In class)
- Thursday Oct 10 (Outreach)

Assignment: Write a 1-2 page proposal for a class project.

Delivery:
Send your proposal to me by email, as an attached Word or PDF file
The file name should have the form:
    [Class]_proposal_name.{pdf, docx}
    Example: CS451_proposal_Donohoe.pdf

Note: You may work in pairs on your proposal and your project.

Some possible projects are:
- Research paper. Examples:
    - Explore, in depth, something you are interested in
    - Explore an emerging trend in computer architecture and design
- Programming, simulation or design project
    - This can be an avenue to gaining in-depth understanding of a topic
    - Many questions will arise and have to be answered, which is a key element of learning

In your proposal, indicate:
- What you will research or implement
- Why it is important
- What you hope to learn
- What sources or resources you will use..
